A P P E A R A N C E S

FOR THE CITY OF PROSPECT:

MAYOR JOHN EVANS

PROSPECT MAYORS OFFICE

9200 US Highway 42

Prospect City Hall

PROSPECT, KENTUCKY 40059

1 CITY OF PROSPECT, KENTUCKY

2 CITY COUNCIL MEETING

3 JUNE 15, 2015

4 MAYOR EVANS: Welcome to the monthly
5 regular meeting of the city council of the City of
6 Prospect, Kentucky. Today is June 15th, 2015.

7 Five of our six council members are here. The
8 only one absent today -- tonight is Stuart Miles,
9 who is on vacation.

10 The first order of business is to consider
11 approving the minutes of the city council meeting
12 held on May 4th, 2015 and also the minutes of the
13 meeting held on May 18th, 2015. Those minutes
14 were sent to all of the council members prior to
15 this meeting so that they could review them and
16 see if they have any requested changes.

17 And, in fact, somebody did, and we made the
18 change. I think it was Councilman Fulcher. We
19 thank you, Frank, for picking that up. And so they
20 have been corrected accordingly.

21 Are there any other suggested additions or
22 corrections to those minutes, either of them?

23 COUNCIL MEMBERS: [no audible
24 response]

25 MAYOR EVANS: If not, I'll ask for a

1 motion to approve the minutes of the May 4th
2 meeting as it has been presented. Is there such a
3 motion?

4 MR. SPEAKER: So moved.

5 MS. SPEAKER: So moved.

6 MAYOR EVANS: Is there a second?

7 COUNCIL MEMBER SCHMIDT: Second.

8 MAYOR EVANS: It's been moved and
9 seconded. Any further discussion?

10 COUNCIL MEMBERS: [no audible
11 response]

12 MAYOR EVANS: All in favor say "aye."

13 COUNCIL MEMBERS: Aye.

14 MAYOR EVANS: All opposed?

15 COUNCIL MEMBERS: [no audible
16 response]

17 MAYOR EVANS: The ayes have it.
18 Those minutes are approved.

19 Next, the minutes of the May 18th meeting, is
20 there a motion to accept those minutes as
21 presented?

22 COUNCIL MEMBER TUCCI: Move to
23 accept.

24 MAYOR EVANS: Moved --

25 COUNCIL MEMBER FULCHER: Second.

1 Second.

2 MAYOR EVANS: Mr. Fulcher seconds.

3 It's been moved and seconded. All in favor say

4 "aye."

5 COUNCIL MEMBERS: Aye.

6 MAYOR EVANS: All opposed.

7 COUNCIL MEMBERS: [no audible

8 response]

9 MAYOR EVANS: The ayes have it. And
10 those minutes also are approved.

11 Next item on the agenda is my report on city
12 matters. A big one coming up is the 4th of July
13 Celebration. I know pretty much about it, but the
14 real expert on that is the lady who has put it all
15 together for us. And that's Holly LeVold. And I'm
16 going to pass the ball to her, and ask her to tell
17 you what's -- what's coming up.

18 CITY ADMINISTRATOR LEVOLD: Well,
19 the 4th of July is going to be at Kelly Park, as
20 usual. It's going to start at 5:00.

21 We've got a really fun item this year. It's a
22 trackless train that kids can be driven around the
23 neighborhood on and back to Kelly Park. It's
24 going to be a lot of fun.

25 We've added a couple slides and bouncy

1 houses. There'll be food trucks. And we've been
2 promised the biggest finale in our fireworks that
3 we've ever had, which is a pretty big deal. And it
4 should be really big this year.

5 MAYOR EVANS: It was pretty big last
6 year.

7 CITY ADMINISTRATOR LEVOLD: Yeah,
8 it's bigger this year.

9 MAYOR EVANS: Okay. Well, I'll get ear
10 plugs for my little dog. Is that it, Holly?

11 CITY ADMINISTRATOR LEVOLD: That's
12 it.

13 MAYOR EVANS: Okay. It was really
14 good last year, and Holly put that together, too.
15 So I expect it's going to be really great.

16 The only thing about it is the weather. And if
17 the weather is good, I get the credit. And if it's
18 not, I get the blame. So that's how that works.
19 Fortunately, it is on a Saturday this year, so we do
20 have a rain day if we need it.

21 The other matter I wanted to just touch on is
22 something I believe I mentioned at a recent
23 meeting in May. I believe I told everybody that I
24 had just received a letter from the Louisville Water
25 Company telling us that they were going to be

1 putting a new water main, 16-inches diameter,
2 down this side of U.S. 42 ending up at the
3 entrance to The Landings at Timberlake Drive and
4 running all the way down to almost the entrance to
5 Hunting Creek, the Happy Hollow Road place.

6 So my first reaction to that was not good.
7 And I called the chief engineer, and he has since
8 forgiven me. And we had lunch together, and
9 Sandra Leonard -- Councilwoman Leonard was
10 there, and has been involved in this throughout.
11 Councilman Schmidt walked with us once or twice.
12 Andy Williams is the chief engineer.

13 I think now we may have walked that route
14 four times, mostly recently with Andrea Hamlon,
15 our arborist, and looked at the trees that have to
16 be removed, as well as trees that, pursuant
17 Andrea's advice, we've decided ought to be
18 removed.

19 And those are principally -- what's -- ash
20 trees. I was trying to think of the type of tree
21 that's having the problem with the tree bores. It's
22 ash trees. And some of those are pretty declining
23 in condition, and, actually, three of them are
24 small -- or comparatively small, and they're right
25 along the fence at the property at the corner of

1 Fox Harbor and 42, which is owned by Brian Lavin.

2 And so I communicated with Mr. Lavin's
3 landscape guy. Mr. Lavin is the head of NTS, and
4 he has a landscape guy, Tony Higgins. And so
5 Tony and Andrea and, as it turns out, Brian met
6 the following morning and looked at those trees,
7 and Brian and Tony said, "Yeah, they should come
8 out."

9 So they didn't have to, but they will be.
10 They're maybe as tall as this ceiling. So they're
11 not huge, but they're not babies, either; but they
12 are ash trees, and are in decline. And so they
13 decided it would be okay to take them out.

14 One of the benefits -- and I'm going to ask
15 Sandra to comment on this in a second, if she will.
16 One of the benefits of this is that things that ought
17 to be done, which would cost the city a lot of
18 money, they will do for us.

19 They've been cooperative with us. And, also,
20 Sandra has negotiated with them about how much
21 money they will pay us for the trees they take out.

22 So with that, Sandra, could I ask you to share
23 the spotlight here for a minute and tell everybody
24 what we've done?

25 COUNCIL MEMBER LEONARD: I'm afraid

1 I could bore you to tears, but the bottom line is:
2 All of the trees they're taking out, there are about
3 four that I wish we weren't going to lose.

4 The rest of them are either, like, in the area
5 next to City Hall where there's a lot of refuse.
6 There's a lot of -- of trees that are not
7 particularly -- what do I want to say, trees that are
8 trash trees, except that's not the right word.
9 Trees that just grew, not that were planted. And --

10 COUNCIL MEMBER TUCCI: Volunteers.

11 COUNCIL MEMBER LEONARD: -- Thank
12 you. Thank you.

13 They're kind enough that they're going to pay
14 us for anything over 3 inches. And so overall
15 they're going to remove approximately 56 trees,
16 but many of them are little things that we don't
17 care about.

18 They're also going to remove trees that are in
19 decline, either at the end of their life span or that
20 are seriously compromised. There's a big tree off
21 the end of where you go into Putney Pond that's
22 got a big, huge hole all the way through it. So
23 those are coming down.

24 There's another one right off the end of City
25 Hall right here, which, if you take a look at it when

1 you drive out tonight, you'll see is really not good,
2 and we have to pay to take that down in a year or
3 two.

4 So overall they've been very generous. The
5 money that they're going give us is approximately
6 \$25,000. It's little bit more than that. It is more
7 than the cost that we've set on the trees they're
8 taking out. They're giving us a buffer.

9 So overall, if we lost, for the sake of
10 argument, 10 trees more in the next five years,
11 they would have paid us enough money to
12 accommodate that. So overall I'm amazed at how
13 cooperative they've been, because I don't think it
14 started that way.

15 MAYOR EVANS: No, I confess, it didn't,
16 and that was basically my reaction to what I
17 thought was -- well, I felt a little bit ambushed or
18 something. I mean, they've known about this for a
19 very long time, and then all of a sudden here's this
20 letter, "We're going do this."

21 And I think it would have been better if they
22 had given us a heads up some time ago, but,
23 apparently, they don't work that way.

24 Anyway, that's where we are. We certainly
25 have focused on this hard and with the advice of

1 our arborist and with the help of Luke and
2 Sandra -- and I still have some of the bites that I
3 received from whatever it was that crawled up my
4 pant legs while I was doing these walks, so I have
5 those to treasure.

6 So are there any questions about any of that
7 before we move on?

8 COUNCIL MEMBER LEONARD: One --
9 one more comment. The \$25,000 that's going to
10 come into the city we've all agreed is going to
11 come into the city general fund, because a number
12 of the trees that are coming down, no matter what
13 condition they're in, we would not replace.

14 They're not safe. They're too close to 42.
15 They're in a visual area that we would not be
16 allowed to put trees into.

17 So the \$25,000 will be used to make the city
18 overall look better. It won't be particularly
19 targeted for anything in particular.

20 So whenever a project comes forward, it will
21 come forward to the city council, and it will be --
22 well, part of what we'll talk about will be the fact
23 that's what's going to come out of, that funded
24 money.

25 MAYOR EVANS: Thank you very much,

1 Sandra, and thank you for everything that you did.
2 And, Luke, thank you for everything that you did;
3 that we'll try to work all these things out, which I
4 believe we've done.

5 I have been asked to give the Parks and
6 Public Lands Committee update. Linda Wardell is,
7 I believe, out of town. Stuart Miles I know is out
8 of town. If there's anybody else here from that
9 committee, I'd be happy for you to come up, but I
10 have some notes here that Linda has passed onto
11 me, so I can play third base here or third string.

12 She said, [reads] Here are a few things you
13 can mention. First, the boardwalk connecting
14 Little Hunting Creek Park to the Wol -- Woodland
15 Trails in Putney Pond and Woodlands has been
16 completed.

17 It says, [reads] As the entire length was built
18 by Boy Scouts doing their Eagle projects, we are
19 naming the boardwalk Eagle's Way.

20 [reads] Second, the first section of the
21 boardwalk across the wetlands of Putney Pond and
22 Woodlands, also being built by Boy Scouts,
23 currently is under construction.

24 [reads] Third, we hope to reopen the Orange
25 Trail in Hunting Creek Park later this summer; and

1 then, finally, the 2015 annual report, which the
2 committee made to, Linda made it, made it to the
3 Kentucky Heritage Land Conservation Fund, is the
4 report for the management of Putley Pond --
5 Putney Pond and the Woodlands.

6 So that has been submitted. And it -- I read
7 it, and it looked very good. So that's the Parks
8 Committee report as far as I can carry that ball.

9 The next committee report is from the
10 Forestation Board. And we do have our chairman
11 in the back with us, which is Mr. Tucci.

12 MR. TUCCI: I already distributed to
13 council, and there's copies in the back on the
14 table, a list of 17 trees that were planted by the
15 city this spring. And the locations are shown -- on
16 the right are shown. They were all selected by our
17 arborist consultant, Andrea Hamlon.

18 We completed our Emerald Ash Bore treatment
19 for large trees. Forty city trees were treated
20 basically in the second half of May. They
21 averaged about 19 inches in size.

22 The total cost is about \$5700, and this was
23 some \$1200 cheaper than if we had taken the
24 highest bid. We took the lowest, what they're
25 offering. Reputable [phonetic] --

1 A -- another positive thing about that, we had
2 advertised in the Prospect Newsletter that
3 residents could get the same price for treating
4 their ash trees as the city was paying, which was a
5 very favorable price. And about 35 residents
6 pursued this program and had something, like, 70
7 trees treated. So we ended up with treating
8 over 100 trees between the city and the citizens.

9 Another thing that's going on right now, we
10 have about four cases of people having hazardous
11 trees. We've written them all -- or met with them
12 and asked them to please take those trees down.

13 There's also some work being done on
14 obstructed lights, where tree leaves or limbs are
15 obstructing the street lights. And we know there's
16 two in Fox Harbor that's supposed to be done in
17 the next day or two. We had a whole list of those
18 prepared last year, but if anybody observes more
19 obstructive trees, call it into the city, and I think
20 they'll be taken care of.

21 Yes, sir?

22 MR. SPEAKER: I just want to know if you
23 ever got anywhere with the -- Limbwalker about the
24 prices, where they decided they weren't going to
25 do what they said they were going to do.

1 MR. TUCCI: Yeah, we had adver -- we
2 had advertized that the residents could get the
3 same price as the city paid, and we had one case
4 where the -- Limbwalker said they wouldn't do it
5 for that price because they had a minimum charge
6 of \$150. So we told Limbwalker that that was
7 unacceptable, so they would probably be
8 disqualified next year.

9 MR. SPEAKER: Okay.

10 MR. TUCCI: Any other questions?

11 MAYOR EVANS: I guess not. Thank you
12 very much, Lee.

13 I'm going to lump two of these committee
14 reports together because Sandra Leonard is in
15 charge of both of them, the Library Committee
16 update and the History Book Committee update.

17 COUNCIL MEMBER LEONARD: I know I
18 said this last year, and it's true again: The library
19 has had it's best year to date. We've made about
20 \$2500 on our used-book sales.

21 The order is in, and we're getting books that
22 we can't get from our normal lease contract. This
23 year that will be picture books for little bitty kids,
24 chapter books for younger children, a couple of
25 Kentucky authors that we can't get through a

1 larger distributor.

2 And the rest of it is all going to be in audio
3 books, which tends to make people that I talk to in
4 the library really happy. And I'm trying really hard
5 to order books that both men and women can listen
6 to, which is really hard.

7 In terms of the History Book Committee, if all
8 of you saw the article in the paper, Martha
9 Snowden -- and I don't remember her current last
10 name. I think she's had four husbands. Anyway,
11 she and her brother used to run the Prospect
12 General Store. And --

13 COUNCIL MEMBER FULCHER: It's
14 Mahan.

15 COUNCIL MEMBER LEONARD: Thank
16 you.

17 COUNCIL MEMBER FULCHER: Martha
18 Mahan.

19 COUNCIL MEMBER LEONARD: Mahan.
20 Anyway, she -- she is, obviously, a fascinating
21 human being. And one of our members talked to
22 her this last week, and I can't wait -- we have a
23 meeting tomorrow to find out what she said,
24 because she really -- her parents actually started
25 the general store, and so there's a whole

1 continuity of information there that we haven't
2 been able to get from anybody else.

3 MR. SPEAKER: Did they [phonetic] --

4 COUNCIL MEMBER LEONARD: No, I did
5 the books. That was --

6 MAYOR EVANS: That was good
7 [phonetic].

8 COUNCIL MEMBER LEONARD: --
9 Martha; uh-huh.

10 MAYOR EVANS: All right. And just a
11 personal note: I remember Martha Snowden when
12 she was working in the Prospect store back in the
13 late '70s, maybe after that for a little bit. And if
14 you don't remember it, that was quite an operation.
15 You could call them up and tell them what you
16 wanted, and they would put it in a bag and bring it
17 to you.

18 Now, the other thing I remember about
19 Martha -- well, it's something I don't want to say
20 because it wasn't complimentary to me.

21 COUNCIL MEMBER LEONARD: Well, tell
22 us.

23 MAYOR EVANS: No, no, no.

24 MAYOR EVANS: But I remember Martha
25 with her hand down in a bin where there was

1 lettuce or cabbage or something like that, and she
2 was wearing the biggest emerald on her hand that
3 I'd ever seen. I mean, it was a -- a rock. And
4 she's in there with this -- it was a genuine
5 emerald. She was in there just digging around in
6 the lettuce.

7 So it was an interesting little country general
8 grocery store. And, of course, it's gone.

9 I also remember her brother, Joe, he owned
10 the building where the city hall was from
11 about 1977 or '8 until about 1981 or thereabouts,
12 and was a two-story frame building. And right
13 about the time that the city leased it for a city
14 hall, he painted it this remarkable color of blue
15 and painted all the trim purple.

16 And I don't know that anybody ever asked him
17 about it, but we all thought that it was probable
18 that Joe got a deal on some paint they couldn't
19 sell to anybody else and painted City Hall that
20 color.

21 And the reason that our occupancy ended
22 there -- because they say that -- that house was
23 probably 100 years old, and a -- a funny thing
24 happened. The fire marshal came up and
25 inspected it, and he had a clipboard with 20 or 30

1 items on it, you know, checkmarks.

2 And he inspected the place for safety. And he
3 checked off every single hazard on the clipboard.
4 And so instead of rewiring it and doing all the
5 things we would have had to do, we -- we -- it was
6 declared unsafe. We couldn't stay there.

7 So that was the end of our occupancy of Joe
8 Snowden's building. I saw him once after that. He
9 still hadn't forgiven me, so. . .

10 COUNCIL MEMBER LEONARD: We have
11 a picture of that for the book, but it's not in color.
12 So if anybody ever find's one in color --

13 MAYOR EVANS: I gave you a picture in
14 color.

15 COUNCIL MEMBER LEONARD: It's not
16 purple. It's --

17 MAYOR EVANS: No. All right.

18 [WHEREUPON, off-the-record remarks are
19 made.]

20 MAYOR EVANS: Moving along, the
21 Landscape and Beautification Committee, I'll make
22 that report.

23 We haven't met for a couple of months. We've
24 got all of the planting done of the flowers and
25 trees and things for the season April/May. Of

1 course, April had rained so much, we couldn't do a
2 lot. And when the rain stopped, we got busy.

3 And I say "we." It was Pro Turf and Andrea.
4 And they got out there, and they did all the
5 plantings that you see in all the entrances.

6 And where we are right now is just trying keep
7 things alive with water. A lot of our irrigation
8 systems are either kaput or not working well, and
9 that's something that, in our budget, we're going
10 have to address.

11 In the meantime, we have a truck with a big
12 water tank and a pump. And when I entered
13 Hunting Creek this evening around 5:00, one of our
14 employees, Mike Lesch, was there with the truck at
15 the entrance to Hunting Creek watering things.
16 They need to get up to Bridgepointe as frequently
17 as possible and water those stuff those people
18 stuff up there.

19 We're aware of all of this, and that's why we
20 have hired on a part time basis a young man, just
21 started today. And all he's going to do is water
22 things. It's been dry. And if you don't water stuff,
23 it'll die. So that's what we're up to mainly.

24 At the next meeting we have, we will talk
25 about, as we move into fiscal year 2015/'16, what

1 our next couple of projects around 42 will be. And
2 I'll be looking forward to Mr. Simpson's input on
3 that, because I know he has some ideas,
4 references.

5 You know, we are focused on -- as we -- as
6 the budget allows, on moving along 42 similarly as
7 we did between Happy Hollow Road and the
8 entrance to Hunting Creek, which looks so much
9 better, and as we did across from Smithfield
10 Green, had all that cleared out, having that grass
11 mowed, that looks so much better. And we're
12 going to keep doing those things, so that the front
13 door of Prospect does justice for the rest of it.

14 COUNCIL MEMBER LEONARD: One of
15 the things -- could I have one more second?

16 MAYOR EVANS: Sure.

17 COUNCIL MEMBER LEONARD: One of
18 the things we didn't tell you about the water
19 company, when you just mentioned Andrea, they
20 will hire Andrea Hanlon to make sure they do what
21 they told us they were going do.

22 For example, they're going to put in -- which
23 we have no faith in the world. They're going to put
24 in a construction fence, you know, the temporary
25 ones, so that they won't go in and intrude on any

1 of the trees that are behind the area. So
2 somebody, in playing with their equipment, is not
3 going to crash off in and take more stuff down.

4 Well, we're not going to pay Andrea to do
5 that, so they are going pay her as a subcontractor
6 to keep an eye on all these individual components
7 that they've agreed to. And in addition to that,
8 we're going to get field notes, both from them and
9 from Andrea, so that we can review them to make
10 sure that they have done what they said they were
11 going do.

12 MAYOR EVANS: Okay. One other thing
13 occurs to me when we talk about our front door.
14 As many of you know, maybe some of you don't,
15 the entrance brickwork when you come off of
16 Covered Bridge Road into what I call the back
17 entrance to the Estates of Hunting Creek was
18 basically destroyed by a car that tried to make the
19 turn too fast and didn't make it and crashed into
20 the brick instead. And so it's been sort of a pile
21 of rubble there ever since, and it's been awhile.

22 And what's held us up has been getting the
23 insurance company to move on it, make its
24 adjustment and all that. And I got an email saying
25 he was down there at 2:30 this afternoon, and

1 Holly just told me that they will give us their
2 report a week from today.

3 So that's how fast those things move, but it --
4 as soon as we have that, we will have a brick
5 mason at work putting that back up the way it was.

6 That's all the reports and -- except for the
7 Environmental Services Committee, and that would
8 be Councilman Fulcher.

9 COUNCIL MEMBER FULCHER: Thank
10 you. The Environmental Services is a study
11 committee which -- with the charge of taking a look
12 at all of the sanitary-type services that the -- that
13 the city offers to the citizens.

14 It's -- when we were given the -- when we
15 were given the assignment of reviewing this, it
16 was -- one of the reasons was because the Rum --
17 Rumpke contract was coming due in very short
18 order, which at the end of this month is when the,
19 current contract expires.

20 We found out that, in -- in discussing it with
21 the mayor and various others, there's no room --
22 there's no flexibility within the current contract to
23 even extend it while we looked at various options
24 available to us, or even some of the questions that
25 we wanted to ask relative to how other people do

1 things, what the current technology is, what
2 efficiencies we could -- we could offer, that type
3 of thing. So there was no -- no room for -- for any
4 of that level of flexibility.

5 So the first order of business for us was then
6 to undertake to construct a contract, with Holly
7 and the mayor's -- mayor's guidance, that offered
8 a level of flexibility for that -- those particular
9 services, which gives the community opportunity to
10 change things, to try things, pilot projects.
11 Different neighborhoods have different needs. All
12 of that flexibility is built into it.

13 And Rumpke was the only -- the only
14 contractor who responded to our request for a
15 quote. They did a very complete job in putting
16 together their proposal. And the -- so we have
17 no -- so we're recommending to the mayor that he
18 proceed with the contract as he has it in -- in hand
19 at this point.

20 The -- just a -- just a point of general
21 information. This -- this is about 3/4 of a million
22 bucks -- a little shy of 3/4 of a million bucks for
23 these services, and the -- it's the largest single
24 budget line item we have.

25 And when I say that, I mean, you know, you

1 take a look at what -- the police budget as being
2 the big one, or whatever, but they've done an
3 excellent job of breaking down every particular
4 piece that they need as a line item.

5 This -- this -- we started out with a line item
6 of roughly \$700,000 with no breakdown, no -- no
7 yard waste breakdown and no trash breakdown, no
8 recycle breakdown, no container prices, none --
9 none of the things that make up about 25% of our
10 budget.

11 So -- so that was one of the drivers in trying
12 to build flexibility into the contract so that we
13 could also identify where -- what the cost space is
14 for all of these items happen to be. So as we go
15 forward, next year's budget, we can -- we can look
16 at it with a little more intelligent perspective.

17 Now, the -- as I said, we've rec -- we
18 recommended this as it stands, because they've --
19 they've got it. We've got two -- we've got two
20 weeks to do it. However, with that
21 recommendation, we recognize that to continue
22 with the status quo will be slightly over budget,
23 over the -- the budgeted number for 15/'16
24 budget; but we've built in the sufficient flexibility
25 into the contract that over the -- over the next

1 year, that maintaining costs below budget should
2 not be a problem.

3 So the work of the committee isn't finished,
4 because we had raised a lot of questions we need
5 to have answered yet such that we can give the
6 mayor and -- and Holly some of the -- some
7 guidance in where the industry's going; where --
8 what costs are; how we can break them down in --
9 in a more detailed fashion.

10 We're not at that point right now. So any
11 speculation on what's going to be done or how it's
12 going to be done is -- is premature, other than we
13 must place a contract by the end of this month.

14 So, now, one other item, you know, 3/4 of a
15 million dollars is a lot of money. It's a lot of
16 money for this city. It's a lot of money for just
17 about -- just about anybody, but Luke -- Luke has
18 had -- had some experience in this industry. And
19 there are several other cities, apparently, that
20 have been faced with this type of situation.

21 And when there's a -- when there's a savings
22 associated with any -- anything, whether you say,
23 okay, we saved money on trees this year. We
24 saved money on garbage pickup. We saved
25 money -- what do you with it? What do you do with

1 that money?

2 And -- and -- and Luke has some views on how
3 other people have handled that. So if you don't
4 mind, I'll pass it to Luke.

5 MAYOR EVANS: Sure, that would be
6 fine.

7 COUNCIL MEMBER SCHMIDT: Thank
8 you.

9 MAYOR EVANS: Thank you, Frank.

10 COUNCIL MEMBER SCHMIDT: I want to
11 just echo what Frank said. This really is a work in
12 progress. The committee has spent a lot of time to
13 get to the point where we are right now, but we
14 still have a lot of work to do, but we have learned
15 a lot. There's no question about that.

16 And as he indicated, I have spent quite a few
17 years in this industry, 17, to be exact. So I am
18 kind of familiar with what a lot of cities have done,
19 both large and small, across the country.

20 When we started looking at this -- and, again,
21 recognizing what Frank said, that if we don't make
22 any changes to the current system, we're going to
23 be over budget, and we -- we will have to address
24 that sometime during the course of the year.

25 We've taken a look at three different ways

1 that you can reduce costs and -- and, perhaps,
2 make the system more efficient along the way.
3 What I'd like to do is just take a couple of minutes
4 and just highlight what some of these things might
5 be, and, again, stressing that we're -- we're not
6 here tonight directing that one, two, or three
7 changes or any change. We just want to kind of
8 let you know what we've been thinking.

9 One of the changes that we would look at
10 would be to reduce the frequency of collection to
11 once a week for garbage collection, which is the
12 same amount for recycling yard waste, which is
13 currently once a week.

14 Another change that we could look at is the
15 introduction of new, more modern 65-gallon rollout
16 recycling bins. You may have seen these in other
17 cities. They're not quite as large as the
18 traditional rollout garbage can, but they're a lot
19 bigger than the 18-gallon bins that we have now.

20 The City of Lexington, I believe, was the first
21 city in the United States to do this, and it's
22 definitely about 20-some-odd years ago. And it
23 was a huge success.

24 What happens is that you have more people
25 participate in the recycling program, and,

1 consequently, more people will put more materials
2 in the bin than they currently do with the 18-gallon
3 bin. And then, ultimately, you divert more solid
4 waste from the landfill, which is really the goal of
5 recycling. So it's a green win-win situation.

6 Another thing that we looked at and thought
7 about a little bit that you may have heard about,
8 and that is changing from rear-door collection to
9 rolling the garbage cans out to the curb. You
10 know, that's an option. That's something that
11 could be done.

12 So, you know, just very quickly, again, taking
13 into account the top line, what we were given and
14 how much can you save by implementing some of
15 these changes, a -- again, remember that our
16 current system going forward is going to
17 cost 711,000 going into the next year.

18 Just by reducing the collection frequency
19 alone to once a week, leaving everything else
20 the -- the way it is, we can save \$107,000
21 annually. By reducing the collection frequency,
22 retaining rear-door collection, but introducing the
23 new 65-gallon recycling bin, we can also save
24 about \$107,000 each year.

25 By re -- by retaining the two -- twice a week

1 collection frequency but eliminating rear-door
2 collection, we can save \$249,000 each year. And
3 over the life of a four-year contract, that's about
4 \$1 million.

5 And then, lastly, if we were to make -- you
6 know, reduce the collection frequency, eliminate
7 the rear-door collection, and introduce
8 the 65-gallon recycling container, then you're
9 talking about \$338,000 a year in savings. And,
10 again, that's 1.3 million over the life of a four-year
11 contract. So that's a pretty -- a pretty healthy
12 savings.

13 So where we are, as Frank indicated, the
14 committee is going to do some more research and
15 have more dialogue on this. You'll be hearing a
16 lot more about it, and we'll see what happens, but
17 it's interesting to see what opportunities are out
18 there, and there will be additional discussion.

19 COUNCIL MEMBER FULCHER: Excuse
20 me. Can I have the floor again, please?

21 MAYOR EVANS: [nods head]

22 COUNCIL MEMBER FULCHER: One item
23 that you omitted, and there were several items that
24 you had discussed with me about what the cities
25 had done with the savings, some -- and some

1 people --

2 COUNCIL MEMBER SCHMIDT: Sure.

3 COUNCIL MEMBER FULCHER: -- some
4 people had to do it because they were way over
5 budget. They had to take some drastic measures.

6 COUNCIL MEMBER SCHMIDT: There
7 are -- there are -- there are a lot of things that
8 you can do. Obviously, you can take a look at
9 using these funds towards some capital projects
10 that right now our budget just does not allow for.
11 One thing that's been discussed in a maintenance
12 facility or maintenance building that we need, a
13 large building, but the budget just doesn't allow
14 for that kind of construction at this point in time.

15 Another thing is you can kind of bank some of
16 these savings, if you will, and use them for
17 matching grants; because down the road, I know a
18 lot of folks have expressed an interest in
19 connectivity between neighborhoods, you know,
20 putting in some bike paths in between various
21 subdivisions, and lighting and landscaping, things
22 of that nature.

23 The city is in a position where it can go out
24 and -- and apply for grants for these types of
25 projects. Usually it requires a matching grant

1 from the city. If we made the biggest change here,
2 you could fund \$5 million grants on a 20%
3 matching grant. So, in other words, you can turn a
4 million into five million to be used on local
5 projects for bike paths, lighting, landscaping,
6 things of that nature.

7 So, you know, that's the kind of thing we want
8 to get our arms around, because a lot of people
9 would be -- I think would like to see what -- you
10 know, what's next for Prospect in the
11 next 5, 10, 15 years? And this is kind of part of
12 that discussion is that, you know, it might get --
13 might help us do some things that we can't
14 otherwise do.

15 COUNCIL MEMBER FULCHER: Thank
16 you. One -- one other point. I -- I welcome any
17 interested parties into the committee. I mean,
18 we -- we have a good committee. There's been
19 lots of dialogue. People with an interest, I
20 certainly invite you to -- to contact me, and we'll
21 let everyone know when the next committee
22 meeting is.

23 We -- of course, they're public meetings of,
24 you know, the ope -- open meeting law, and we'll
25 try our best to get as much community input as we

1 can as we go forward. Thank you.

2 COUNCIL MEMBER TUCCI: Could -- if
3 we could back up a minute? Could you clarify: At
4 the end of this month, we will be signing a
5 contract with Rumpke that is fundamentally what
6 we have had in the past.

7 MAYOR EVANS: It would be precisely
8 what --

9 COUNCIL MEMBER TUCCI: The diff --
10 the --

11 MAYOR EVANS: -- it's been precisely.

12 COUNCIL MEMBER TUCCI: -- the
13 different -- yeah, the difference only is that within
14 that contract there's the possibility of flexibility;
15 is that correct?

16 MAYOR EVANS: Down the road.

17 COUNCIL MEMBER TUCCI: Is that down
18 the road in three years or down the year -- down
19 the road next October?

20 MAYOR EVANS: Either way.

21 COUNCIL MEMBER LEONARD: It's our
22 choice. Rumpke's not going to change it.

23 COUNCIL MEMBER TUCCI: But we could
24 change it without --

25 COUNCIL MEMBER LEONARD: If we

1 chose to.

2 COUNCIL MEMBER TUCCI: Yeah. And
3 these are just sort of random thoughts.
4 The 65-gallon containers, who buys them? Does
5 Rumpke provide them? Do the -- we buy them?

6 MEMBER LEONARD: It depends on the
7 service with it. And one of the areas that we need
8 to continue looking into is if different people talk,
9 their perception of what Rumpke has said isn't
10 exactly what they're saying.

11 And so one of the things we need to look at --
12 our hope is that we will come up with something
13 where they' buy it and where it's economically
14 practical for them to buy it.

15 COUNCIL MEMBER TUCCI: Okay. Just,
16 again, sort of random thoughts. I'm conscious
17 about inviting everybody onto a committee. We've
18 had difficulty in the past in that when we sort of
19 say "anybody who wants to be on the committee
20 can," we often end up with something that is closer
21 to a cabal of people who have a point of view
22 rather than having actually some kind of
23 representative sort of thing.

24 So I'm not sure how you -- I would be very
25 interested, for instance, in having representatives

1 from every neighborhood on a committee. Anyhow,
2 I just think it -- it -- you can find yourself in a bad
3 position inadvertently, because only one faction is
4 a --

5 COUNCIL MEMBER LEONARD: It's not --

6 COUNCIL MEMBER TUCCI: -- you know,
7 people who are really passionate about something,
8 and they show up; and then there are other people
9 who six months down the road say, "huh?"

10 COUNCIL MEMBER LEONARD: Well, on
11 the other hand, though --

12 COUNCIL MEMBER TUCCI: And --

13 COUNCIL MEMBER LEONARD: -- they
14 are open meetings. And, truthfully, anybody who
15 wants to come can --

16 COUNCIL MEMBER TUCCI: Yeah, I -- I
17 understand.

18 COUNCIL MEMBER LEONARD: -- can
19 come.

20 COUNCIL MEMBER TUCCI: It's just a
21 matter of --

22 COUNCIL MEMBER LEONARD:
23 Semantics.

24 COUNCIL MEMBER TUCCI: You know,
25 you can have the perception of fairness, and it

1 works out not that way at all.

2 COUNCIL MEMBER LEONARD: Uh-huh.

3 COUNCIL MEMBER TUCCI: The other
4 thing, again, thinking of some of these offers, one
5 that makes me very uncomfortable is the idea of
6 giving up the backyard col -- back-door collection.
7 It -- I have a nice flat lot, a nice flat driveway.
8 Lee and I always put our garbage out at the curb,
9 always, just to be nice for Rumpke. They're nice
10 guys. We help them out.

11 But I look across the road at two very steep
12 driveways where retired people live.

13 COUNCIL MEMBER LEONARD: Uh-huh.

14 COUNCIL MEMBER TUCCI: Even on a
15 nice day, that's a -- that's an effort. I would hate
16 to see them sliding down there in February.

17 COUNCIL MEMBER LEONARD: Uh-huh.

18 COUNCIL MEMBER TUCCI: So I'm -- if --
19 if you happen to be -- to live in one of the flatter
20 parts of Prospect, and you don't go walking in
21 some of -- some of the other parts, you forget what
22 a challenge it can be. But I don't know how we
23 can discriminate and sort of say, "Well,
24 you-guys". . .

25 COUNCIL MEMBER LEONARD: You --

1 you actually hit the nail on -- I've got -- that's
2 another one of our prime focuses. Rumpke's
3 indicated that they would continue back-door
4 pickup without additional charges for
5 roughly 2- to 3% of our populous. Right now we
6 have no idea what that means, what it would do.

7 We know that there are houses that can never
8 give up back-door pickup. We know that there are
9 people that can never give up back-door pickup.
10 So that is absolutely one of the next big areas for
11 us to take a look at.

12 COUNCIL MEMBER FULCHER: ONE:

13 Now, they have -- Rumpke has the technology and
14 they've got the -- they have the processes in place
15 that they can go house by house with different
16 types of pick up, if that was necessary. Now,
17 there's a cost associated with that, but the
18 technology exists and the processes exist.

19 So -- and we've -- we've spent a lot of time
20 discussing the various situations where you've got
21 a short driveway and you're 20 years old and --
22 and you -- you're just think -- you know, or the -- a
23 steep driveway and you're incapable of dealing
24 with it. And then you throw in the variable that,
25 okay, we have a -- an aging population, all of

1 whom have second homes in Florida and aren't
2 here half of the year. So, I mean, the -- the mix --

3 COUNCIL MEMBER LEONARD: Uh-huh.

4 COUNCIL MEMBER FULCHER: -- the mix
5 is quite eclectic, and we're dealing with that,
6 trying to come up with a formula that -- that
7 satisfies the needs of most of the -- most of the
8 people.

9 So it's been addressed. It's been -- it's
10 currently being discussed.

11 COUNCIL MEMBER TUCCI: Yeah, it's --
12 it's tricky. I would -- I would venture to say that
13 it's more than 3% of the residents.

14 COUNCIL MEMBER SCHMIDT: It may be.

15 COUNCIL MEMBER LEONARD: It may
16 be.

17 COUNCIL MEMBER FULCHER: Yes,
18 and -- and --

19 COUNCIL MEMBER TUCCI: We -- we
20 would --

21 COUNCIL MEMBER FULCHER: But the
22 fact --

23 COUNCIL MEMBER TUCCI: -- it'd have
24 to be -- we must have 1,000 residents who are
25 over 65.

1 MAYOR EVANS: We have 990 residents
2 who are --

3 COUNCIL MEMBER TUCCI: Well, I was
4 pretty close.

5 MAYOR EVANS: -- who are over 70. My
6 wife went into her computer and did all the data
7 collection, and came up with that figure, a figure
8 which I presented to this committee at their
9 meeting last -- last -- late last week.

10 Anything further?

11 COUNCIL MEMBER FULCHER: If Sandy
12 has no more questions. . .

13 COUNCIL MEMBER TUCCI: No. The --
14 you know, as I said, I was just sort of presenting
15 them at random, and I -- they may be similar to
16 questions that people who are hearing this for the
17 first time are having, too. So I was. . .

18 MAYOR EVANS: They're good questions.

19 COUNCIL MEMBER LEONARD: Uh-huh.

20 MAYOR EVANS: I have two or three
21 things on this subject that I would like to say as
22 the mayor. The first thing I would like to notice is
23 that, according to our accountants, we currently
24 have \$2-1/2 million in the bank in cash
25 unrestricted, 2-1/2 million.

1 In addition, we have four hundred and,
2 rounding up, twelve dollars -- \$412,000 in our
3 municipal road fund. A significant part of that we
4 will spend this year on paving, over 300,000. I
5 don't know the exact number, but in unrestricted
6 funds we currently have \$2-1/2 million in the bank.

7 More of -- last year we came in under budget
8 by, if my memory serves correctly, \$206,000.
9 According to the May 31st, 2015 financial
10 statement, which I have in front of me, it looks to
11 me as if we are going to come in under budget this
12 year somewhere between 3- and \$400,000.

13 So we are not having a financial problem.
14 That's my point.

15 I already made the point about the number of
16 elderly residents we have. I may be the only
17 person in the room who recently has walked the
18 entire City of Prospect from one end to the other,
19 and that was last August, July -- or August,
20 September, and October. And so I kind of know
21 what I'm -- what I'm talking about. And I've even
22 gone and taken a few photographs.

23 Unfortunately, David, I didn't have time to get
24 up to Bridgepointe, but those driveways would
25 have been eloquent. I know that when I climbed

1 up to Katherine Rafferty's front porch, I had a
2 nose bleed it was so high off the ground.

3 I appreciate everything the committee has
4 done in exploring all of these options. I really do.
5 And they've done an incredible amount of work.

6 My personal view, and I'm not alone, is that
7 this city will not go quietly into the night as far as
8 abandoning back-door pickup. This is a five-star
9 city. It's not a two- or three-star city. And a lot of
10 our people want back-door pickup.

11 Now, I can't go further than that and tell you
12 that I think I know what everybody wants in terms
13 of twice a week versus once a week or any of that
14 kind of stuff. I just don't.

15 But when it comes to curbside, if you think
16 about what our city looks like, and then you think
17 about it once or twice a week with trash cans
18 lining all of our streets, pick a neighborhood, it
19 doesn't matter, I just don't think that most of the
20 people of Prospect want that.

21 And if we would choose to do that, I can tell
22 you who they're going to be mad at. And it isn't
23 Mr. Schmidt and it isn't Mr. Fulcher. It's me;
24 okay?

25 But that aside, you know, I am just -- and I

1 said this at the meeting we had -- the committee
2 meeting, which I attended last week. I said,
3 "You-all need to know where I am with this."

4 The way it works in a mayor/council
5 government is that the council tells the mayor how
6 much he can spend. This is it. And it's line by
7 line and in general categories. And when it comes
8 to trash collection, there's a line for that. And it
9 says \$750,000, or whatever the number is, that the
10 council says you can spend for that. So,
11 ultimately, the council does have control over what
12 we do with this critical, perhaps, the most
13 important city function.

14 I've always believed that the first thing you're
15 going hear about is missed trash collection. I've
16 experienced it. The council can control that
17 through the power of the budget by a vote of for it
18 or whatever, but until they do that, this mayor is
19 not going sign onto curbside collection. I'm just
20 telling you.

21 Anything else?

22 COUNCIL MEMBER SCHMIDT: I'd like to
23 make one comment. The mayor and I probably
24 disagree more than we agree on this issue, and I
25 respect his opinion, but the one thing that I would

1 encourage everybody to do, as the committee
2 moves forward on this issue and as we learn more
3 about it and as we dig into it and we address
4 things such as what Sandy mentioned, and which
5 are very legitimate, very real issues, and very real
6 concerns, I -- I think it's incumbent to try to keep
7 a bit of an open mind; because it -- I spent 17
8 years in this industry hitting up trade associations
9 and the plastics industry, and we dealt day and
10 night every day with these issues with
11 municipalities all across the country.

12 And there's no one size that fits all. There's
13 no question about that. But on the other hand,
14 some of these changes that we've outlined as
15 possibilities, dozens, if not hundreds of cities
16 across the country, big and small, have already
17 done this. They've already made some of these
18 changes. They've done it -- they've done it
19 successfully.

20 So while I maybe don't agree on every point
21 here with the mayor, let us do some research on
22 this, and let us do our due diligence. And when we
23 have a committee meeting, which Frank will post,
24 those that are interested, we encourage you to
25 come out, share your views.

1 If you love the current system, we want to
2 hear it. If you like, maybe, looking at something
3 else, we want to hear that. But I would really,
4 really encourage the community to keep an open
5 mind, because at the time -- because, again, we're
6 not here tonight as a committee to make a
7 decision, make a recommendation, or do anything
8 we can or couldn't do; but it -- the opportunity
9 here for the city is pretty significant if we
10 carefully go about this and -- and try to construct
11 something that really could make a difference in
12 the community down the road.

13 The last point I'll make: When my family and I
14 lived in Charlotte for 17 years, we lived in a -- a
15 golf-course community, beautiful neighborhood. It
16 was as nice as any that are here in Prospect.

17 And we had garbage that was rolled out to the
18 curb. And some of the homes were 3-, 4-, and \$5
19 million homes, and some were a little less, but the
20 point was that it wasn't the end of the world.

21 And so, again, ask everybody to kind of keep
22 an open mind. Let us do our research, and we'll
23 see where it goes. Thank you.

24 MAYOR EVANS: Thank you, Luke.

25 As Mr. Fulcher said, the committee is engaged in

1 studying this matter. The committee has not made
2 a recommendation to me. And until the committee
3 does, I think I've said everything on it I have to
4 say. And there we are.

5 COUNCIL MEMBER FULCHER: Excuse
6 me, John. The committee has made a
7 recommendation, which is to proceed with the
8 contract as written right now.

9 MAYOR EVANS: When did it do that?

10 COUNCIL MEMBER FULCHER: A -- a
11 little earlier.

12 MAYOR EVANS: This afternoon? Just
13 now?

14 COUNCIL MEMBER FULCHER: Yeah.

15 MAYOR EVANS: Okay.

16 COUNCIL MEMBER FULCHER: And that
17 being that we maintain the -- that it would be
18 established with the status quo as we're going
19 forward here in giving us -- giving the committee
20 time to look at some of the items that we're able to
21 insist in bringing under budget or doing -- whether
22 we need to change the budget.

23 So, yes, we've -- we think that we have a good
24 contract and recommend to -- to proceed with it.

25 MAYOR EVANS: All right. Moving right

1 along, the next -- next item -- there will be an
2 opportunity, in just a minute, for anybody to come
3 up to the lectern and talk to the council on
4 anything they want, but we have one more thing on
5 the agenda, and that is the police report from our
6 chief, Chief Sherrard.

7 CHIEF SHERRARD: Okay. House checks
8 were up a little bit compared to the same period
9 last year, about 200 more than normal. I believe
10 that's attributed to the -- the new computer system
11 up and running. It seems to be functioning pretty
12 well. There was a couple of glitches that were
13 corrected actually today, that it seems to be
14 working a little better.

15 Traffic citations are down when you compare
16 them to last year, but that's because we had a --
17 two grants that were working at the same period
18 last year, two federal grants that were essentially
19 ticket-writing grants for speeding and a Click-It or
20 Ticket program.

21 So that's why they were so much higher the
22 same period last year. This period, 15 citations
23 for a month is a little bit lower than normal for us,
24 but it's not drastically lower.

25 Same number of accidents same period last

1 year, 13. That's about the norm for us.

2 Calls for service are down. Initiated runs are
3 down a little bit.

4 Our reports for the month, we had a number of
5 felony reports, but they're related to the theft of
6 mail. There were two ladies that were going
7 around. They hit numerous parts throughout the
8 entire metro area.

9 They were essentially caught out in Audubon
10 Park, I believe, and they executed a search
11 warrant in Audubon Park. When they went into
12 their home, they found several items of mail that
13 had Prospect addresses on it.

14 Audubon Park Police contacted us, and -- and
15 then in turn we contacted the residents at these
16 locations. They hit locations on Smithfield Green,
17 Rose Island Road, and also on Covered Cove.

18 What these two ladies did is they would go
19 around, and they would follow behind a mail truck
20 and see if a package was delivered there. One of
21 them would watch. The other one would continue
22 to follow around behind the truck to see if they
23 delivered a package to another house; also just
24 watch the mail; and, essentially, just go up and
25 snatch it.

1 There weren't a tremendous amount. We only
2 had six reports that were on us, if I'm not
3 mistaken. But, anyway, To -- Officer Tony Leitsch
4 did the follow-up on that, and subsequently placed
5 the charges on them for all of the cases that we
6 had related. So those were all cleared with the
7 rest on those cases.

8 We did have one business break-in at
9 Prospect Point. No suspects at this time.

10 Let's see. We had, let's see, oh, seven -- six
11 arrests for the month. A couple of them were on
12 bench warrants. We had two arrests that were
13 related to the incidents that -- over in Sutherland,
14 where they had the one night where there were a
15 series of thefts from a car. I believe that Colonel
16 Shaw reported that last month.

17 There was a stolen car involved in it, and then
18 about five or six cars that were broken into all on
19 the same night. There were arrests of two people
20 on that case that -- it's still pending in court.

21 I believe they're going to go rocket-docket on
22 that; are they not? Rocket-docket just means it's
23 an accelerated program, but they'll try to
24 adjudicate it a lot quicker.

25 A few other misdemeanor cases, nothing of

1 significance.

2 Just an update on some of the equipment.
3 With the budget adjustment that we had last
4 month, we've already been able to purchase the
5 computers, the radios. They're all in, with the
6 addition -- the equipment that comes with the
7 computers, the scanners, the printers, the
8 connectivity licensing, the tech support contract,
9 we've obtained all of that.

10 Now it's matter of getting it all installed.
11 Colonel Shaw's already making arrangements with
12 the people that do that, where they'll install the
13 radios, the computers on the mounts. And we
14 should be good to go with those within, what, three
15 weeks? Probably about three weeks. It takes a
16 while to get the logistics all worked out.

17 But other than that, I think we're -- that's it.

18 MAYOR EVANS: Thank you very much,
19 Chief.

20 Any new business?

21 COUNCIL MEMBERS: [no audible
22 response]

23 MAYOR EVANS: Any old business?

24 COUNCIL MEMBERS: [no audible
25 response]

1 MAYOR EVANS: Now it's time to hear
2 comments from citizens. There's one gentleman
3 who signed in. His name is Barry Weinshenker.
4 And if he's here, I would welcome him to come up
5 to the podium. And tell the court reporter who you
6 are and where you live and then. . .

7 MR. WEINSHENKER: No problem. I want
8 to thank you. I'm Barry Weinshenker. I live
9 at 12009 Charlock Court. Obviously, I'm a
10 resident of Prospect and of Jefferson County,
11 though I could be a resident of Oldham County had
12 I wished. The property line runs directly through
13 my house; okay.

14 Anyway, my son is a competitive Ironman; has
15 been for several years, so I'm not against biking,
16 running, swimming the whole bit. So keep that in
17 mind.

18 However, I do have a problem with linking the
19 Loop; okay?

20 THE REPORTER: Have a problem with
21 what? I'm sorry.

22 MR. WEINSHENKER: Linking the Loop.

23 THE REPORTER: Oh, okay.

24 MR. WEINSHENKER: Okay. Jefferson
25 County is going to pay, according to Mayor

1 Fischer, \$4.6 million to complete the Loop. In
2 addition, maintenance and taking care of the
3 security, et cetera, would be paid for by Jefferson
4 County residents.

5 Northeast [phonetic] statement right now goes
6 down Springdale Road, Wolf Pen Branch, and
7 U.S. 42. And there was a meeting on the 26th,
8 which was supposed to be a discussion of the
9 route. It was not.

10 It was a discussion of how the route would go
11 through Prospect after it came down U.S. 42 to
12 Timber Ridge Road. I am totally against it coming
13 down 42 to Timber Ridge Road.

14 At the meeting, I can't tell you who was there.
15 I can tell you there was several cars in the parking
16 lot that had Oldham County license plates. The --
17 this is being paid for by Jefferson County; okay?

18 There were comments such as, "I moved out
19 for semi -- for a semi rural area and better
20 schools. Why can't the path go where we live in
21 Oldham County? At least extend it to River Road"
22 okay? That foregoing decision I am against.

23 The only discussion at the meeting was, "Oh,
24 how can we take and make it easier essentially for
25 the people for Oldham County to commute

1 downtown by bisecting Prospect and running a
2 high -- running a path right down U.S. 42, at least
3 to Timber Ridge and possibly all the way to River
4 Road?"

5 Understand, I'm not against bicycling. I'm not
6 against running. I'm certainly not against
7 swimming.

8 Okay. My suggestion is -- and they had no
9 interest in talking about. They already made up
10 their minds -- go down U.S. 42 -- do not go down
11 U.S. 42. Go directly down Wolf Pen Branch Road.
12 They've already ruined Springdale -- or, not
13 Springdale. They've already ruined -- I forgot the
14 name of the city, that little -- oh, Shadow Wood.

15 COUNCIL MEMBER LEONARD: Shadow
16 Wood.

17 MR. WEINSHENKER: They've already
18 ruined Shadow Wood. Once you get past the
19 Drummond Estate, which was supposedly owned by
20 the -- by the state. The state bought for \$8
21 million. There's a rumor they sold is again for 4
22 million. Don't ask. I don't understand the
23 finances.

24 But supposedly, once you get the past the
25 Drummond Estate, if you take a look, you'll find

1 out there's nothing but mud between there and
2 then the river, okay, because that's what they've
3 done in order that they can build the highway, so it
4 would be no problem with them going that way;
5 okay?

6 If they want to, they could tie it in -- build a
7 parking lot and tie it into the bridge, where the
8 bridge is going to have a bicycle/walk path across.

9 By the way, understand, there is going to be
10 no facilities along this, quote, "bike/walk path." I
11 don't know about anybody that -- that has kids
12 that's going to go down a path that has no
13 bathrooms, no water fountains, no nothing; okay?
14 So it's going to be, essentially, a bike path. Let's
15 be clear; okay?

16 What I see happening, the parking lots and
17 places like Kroger and in other parts of Prospect
18 will be completely filled with commuter cars as
19 people come in from wherever so that they can
20 take and use the bike path to go downtown; okay?

21 With no public facilities, there's two choices.
22 I assume the police will make sure that they don't
23 use the second choice, and I don't know if Kroger
24 will let them use their restrooms as the first
25 choice; okay?

1 Construction, when they do this, is further
2 going to exacerbate the traffic and the situation
3 we have with getting out of Prospect currently on
4 U.S. 42. It's certainly not going to get better;
5 okay?

6 If you want to get the people in Prospect to
7 the bridge and so forth, my suggestion would be:
8 Along River Road, build a 5-foot walk path, okay,
9 just right on River Road from Timber Ridge down
10 to where the bridge is. It isn't that far.

11 My suggestion is: If they want -- if you want
12 to take and -- take [phonetic] and help your
13 neighbors, I have no problem with it, but I would
14 suggest they build a bike path down Rose Island
15 Road or down Covered Bridge, which has a
16 tremendous number of bicycles.

17 If we go ahead with this plan, which,
18 evidently, I assume has the council's approval
19 since the council -- a council member ran the
20 meeting on the 26th, I would hope that the council
21 members will be rewarded appropriately at the
22 polls if and when this is started. Thank you.

23 MAYOR EVANS: Well, thank you for your
24 comments. To my knowledge, this city council has
25 absolutely no control over what Metro Government

1 does with the Louisville Loop.

2 MR. WEINSHENKER: Except that you
3 had -- Mr. Miles, I believe, had the meeting. It
4 was in your paper. The only people that -- that
5 were there were people who had already decided
6 where it was going to go with no input from
7 Prospect. Sure.

8 COUNCIL MEMBER LEONARD: Excuse
9 me. Can I say -- I was there.

10 MR. WEINSHENKER: Okay.

11 COUNCIL MEMBER LEONARD: And --

12 MR. WEINSHENKER: I know you were.

13 COUNCIL MEMBER LEONARD: I know.

14 And I don't agree with you, but I also don't agree
15 with them.

16 I think that going down 42 -- and this is my
17 own personal opinion. It has nothing to do with
18 anybody else. I think going down 42 and across
19 Timber Ridge is stupid, because when they talk
20 about the type of people who would use this, it is
21 what you said. It's not bikers, real bikers. Real
22 bikers are not going to want to go on this kind of
23 path.

24 It -- they use mothers with prams. And I
25 personally don't think any mother with a pram is

1 going to want to go along 42.

2 Now, I do know that they are exploring other
3 options that would not put them along roadways.
4 Where that will go, I can't begin to tell you, but I
5 have been as outspoken with my opinions as you
6 have been. And I think we need to keep doing
7 that. That's my --

8 MR. WEINSHENKER: I --

9 COUNCIL MEMBER LEONARD: --
10 personal opinion.

11 MR. WEINSHENKER: -- I would
12 appreciate it if it was -- if it was done. I got the --
13 the impression, because the engineer from the
14 Parks De -- Department, if you remember, stood up
15 at the meeting and said "Oh, yeah. We're going to
16 be coming in on this, and we're going to go here.
17 And then" --

18 COUNCIL MEMBER LEONARD: I think
19 that they --

20 MR. WEINSHENKER: -- "and then when
21 we hit 42, we're going to" --

22 COUNCIL MEMBER LEONARD: I heard --

23 MR. WEINSHENKER: -- "turn." And
24 they --

25 COUNCIL MEMBER LEONARD: -- they

1 were --

2 MR. WEINSHENKER: -- they discussed
3 how -- that they can run a double pathway down --

4 COUNCIL MEMBER LEONARD: That's --
5 that's --

6 MR. WEINSHENKER: -- 42.

7 COUNCIL MEMBER LEONARD: -- what
8 he --

9 MR. WEINSHENKER: There was no
10 discussion any other way.

11 COUNCIL MEMBER LEONARD: I'm -- I --
12 there was where I was.

13 MR. WEINSHENKER: Where you were;
14 okay.

15 COUNCIL MEMBER LEONARD: It's --
16 and I think you need to keep coming to the -- keep
17 coming to those meetings, and I think we need to
18 keep talking.

19 MR. WEINSHENKER: Well, I'm sending
20 my comments, obviously, to Don McCann --

21 COUNCIL MEMBER LEONARD: That's
22 good.

23 MR. WEINSHENKER: -- and --

24 COUNCIL MEMBER LEONARD: That's
25 good.

1 MR. WEINSHENKER: -- Fischer and a
2 few others. Thank you very much.

3 COUNCIL MEMBER SCHMIDT: I'd -- I'd
4 just like to add, also, I attended the meeting and
5 have been following the development of the
6 Louisville Loop, as well. And while we want to be
7 careful where it goes and how it's put in and all
8 that good stuff, the overall picture and the overall
9 intent of the Loop is to connect the entire
10 community, all of Jefferson County.

11 And it improves the quality of life. There's no
12 question about that it improves health.

13 So -- and -- and I think there are a lot of
14 people in Prospect who would like for it to be
15 connected -- like for Prospect to be connected to
16 the Louisville Loop and -- so that we have access
17 to the bridge, and if we want to bicycle downtown,
18 we can do that.

19 But I agree, you -- you want to do it in a way
20 that it doesn't clutter up the roads that we already
21 have, because there are times when bicyclists are
22 slowing everybody down and the traffic backs up.
23 It's not a safe situation.

24 COUNCIL MEMBER LEONARD: Well, the
25 bicyclists on -- on River Road are still going to

1 slow everybody down. Those big groups of 20
2 to 40 people are not going to take this path.

3 And that has come across loud and clear in
4 these meeting. This isn't the type of biker that
5 this particular thing is for.

6 It's -- I keep saying because at the rate
7 they're going, you need to accommodate electric
8 wheelchairs, because I think that those are the
9 kind of people, like me, who are going to be using
10 it. But I don't disagree with your concerns. I
11 really. as you can tell, don't.

12 MAYOR EVANS: Would anybody else like
13 to address the meeting? [no audible response]

14 MAYOR EVANS: Everybody wants to just
15 go home?

16 MAYOR EVANS: Well, I think that can be
17 arranged. Is there a motion?

18 COUNCIL MEMBER SCHMIDT: So moved.

19 MAYOR EVANS: Is there a second?

20 COUNCIL MEMBER FULCHER: Second.

21 MAYOR EVANS: All in favor of
22 adjournment, say "aye."

23 COUNCIL MEMBERS: Aye.

24 MAYOR EVANS: All opposed?

25 COUNCIL MEMBERS: [no audible

1 response]

2 MAYOR EVANS: We're adjourned.

CERTIFICATE OF REPORTER

STATE OF KENTUCKY AT LARGE:

I, BARBIE A. HENNESSEY, Notary Public
for the State of Kentucky at Large, do hereby
certify that the foregoing was reported by
stenographic and mechanical means, which matter
was held on the date, and at the time and place
set out in the caption hereof and that the
foregoing constitutes a true and accurate
transcript of same.

I further certify that I am not related to any of
the parties, nor am I an employee of or related to
any of the attorneys representing the parties, and
I have no financial interest in the outcome of this
matter.

GIVEN under my hand and Notarial seal this
_____ day of _____, 2015.

.

My Commission Expires: Notary Public

.

JANUARY 2, 2017 _____.
